Kick it in Second Wind

Basic
D.2

```
E7
One o'clock in mornin'
A                          E7
People pilin' in thru the door
A7                          E
Drinks are still comin' and I'm barely hummin'
          D                       B7
And the audience is screamin' for more

Somebody's locked in the bathroom
Manager can't find the key
I pay that man but from where I stand
It's lookin' like the prisoner is me

Chorus:
                A               E
     So won'tcha kick it in now second wind
                                D
     We got two more hours to go
              A                         E
     Is there any more hope of scorin' any more coke
            B7                      A
     And we still gotta do another show

My mind started to wander
In the middle of my second song
Dreamin' I was at sea just my baby and me
When the words started comin' out wrong

Waitresses are pickin' up glasses
The bartenders scream last call
When I looked to my right I saw a terrible sight
As the bass man took a bad fall

Chorus:
     So won'tcha kick it in now second wind
     We got two more hours to go
     Losin' any more hope of scorin' any more coke
     And we still gotta do another show

(Organ instrumental)

It's three o'clock in the mornin'
Runnin' on adrenalin
What I'm tryin' to say is that tomorrow's today
And we got to do it over again

Chorus:
     So won'tcha kick it in now second wind
     We got two more hours to go
     Losin' any more hope of scorin' any more coke
     And we still gotta do another show
```
