[Verse 1]
```
  Em                          Em
His eyes are cold and restless
     A                    Em
His wounds have almost healed
       A                  Em
And she'd give half of Texas
              A             Em
Just to change the way he feels
Em
She knows his love's in Tulsa
         A
And she knows he's gonna go
           Em
Well it ain't no woman flesh
and blood
B
It's that damned old rodeo
```

It's the white in his knuckles
       Em
The gold in the buckle
           B                   D B
He'll win the next go 'round
Em
It's boots and chaps
Em
It's cowboy hats
       A           Em
It's spurs and latigo
Em
It's the ropes and the reins
Em
And the joy and the pain
                B          Em
And they call the thing rodeo
```

[Verse 3]
        Em
It'll drive a cowboy crazy
        A              Em
It'll drive the man insane
        A
And he'll sell off everything
    Em
he owns
        A                Em
Just to pay to play the game

For all the years that he spent
 chasin'
